PROJECT REPORT
ON
"Vyaya ET"
(A Comprehensive Expense Tracking)

Submitted for the Partial Fulfilment of
BACHELOR OF COMPUTER
APPLICATION
(BCA)
Part - III Semester - VI

Submitted By
Mr. Jangam Shambhuraj Tanaji
Mr. More Ganesh Vikas

Under the Guidance of
Ms. A. A. Uttekar

TO
KRISHNA COLLEGE OF COMMERCE &
SCIENCE, WATHAR

2025-2026

**KRISHNA COLLEGE OF COMMERCE & SCIENCE,
WATHAR**

CERTIFICATE

This is to certify that,

Mr. Jangam Shambhuraj Tanaji ,Mr. More Ganesh Vikas under the guidance of Ms. A.A .Utteakar, has successfully completed the project work titled “Vyaya ET: Expense Tracker” in partial fulfilment of the requirements for BCA–III (Semester VI), submitted to Krishna College of Commerce & Science, Wathar, during the academic year 2025–26.

Place : Wathar,Karad

Date : 28 / 03 / 2026

**KRISHNA COLLEGE OF COMMERCE & SCIENCE,
WATHAR**

ACKNOWLEDGEMENT

We have great pleasure while submitting this Project Report entitled for **“Vyaya ET” (Daily Expense Management System/A Comprehensive Expense Tracking)** in partial fulfilment of BCA-III (Sem-VI).

We are very sincerely expressing our thanks to Head of Bachelor of Computer Application **Dr. S.J. YELAPURE** sir providing required facilities to complete this project. We are thankful to our project guide **Ms. A. A. Uttekar** madam for their valuable guidance and kind help during completion of project report.

We are hearty and thankful to all friends & them who helped us directly or indirectly to complete this project smoothly.

Thanks to all.

1 Introduction of Project

1.1 INTRODUCTION :

Welcome to **Vyaya ET** - a smart and efficient daily, monthly and yearly expense tracking system designed to simplify personal financial management.

Vyaya ET is a web-based application developed to help users monitor, record, and analyse their daily expenses with ease. In today's fast-moving lifestyle, managing finances manually can be difficult and often leads to unorganized spending. This project aims to provide a structured and user-friendly solution that enables individuals to maintain clear and accurate financial records.

The system is built using modern web technologies including HTML, CSS, and JavaScript for the front-end, ensuring an interactive and responsive user interface. The back-end is developed using Python Flask, which handles the application logic and user requests efficiently, while PostgreSQL is used as the database to securely store and manage expense data.

Vyaya ET allows users to add, update, and categorize their expenses, set their Budgets, view daily and monthly summaries, and gain insights into their spending habits. The application is designed with simplicity and usability in mind, making it suitable for students, professionals, and anyone looking to improve their financial discipline.

By utilizing this system, users can develop better budgeting habits, avoid unnecessary expenses, and make informed financial decisions. Vyaya ET not only serves as a practical expense tracker but also enhances financial awareness through an organized and technology-driven approach.

1.2 EXISTING SYSTEM

The existing system for managing daily expenses is mostly manual, where individuals record their expenses using notebooks or basic tools like spreadsheets. This approach is time-consuming, error-prone, and lacks proper organization.

Additionally, traditional methods do not provide real-time insights or effective analysis of spending patterns. Users often find it difficult to track expenses consistently, leading to poor financial management and lack of awareness about their spending habits.

1.3 NEED AND SCOPE OF SYSTEM

NEED :

Need for Expense Management:

Addresses the need for a simple and efficient system to track daily expenses and manage personal finances.

Financial Awareness:

Helps users understand their spending habits and improve financial discipline.

Automation Requirement:

Reduces dependency on manual record-keeping methods which are time-consuming and error-prone.

Easy Access to Digital Tools:

Provides a user-friendly web-based platform accessible anytime for recording and monitoring expenses.

SCOPE :

Wide User Base:

The system can be used by students, professionals, and individuals to manage their daily expenses effectively.

Web-Based Accessibility:

Being developed using HTML, CSS, JavaScript, Python Flask, and PostgreSQL, it can be accessed through web browsers easily.

Basic Financial Analysis:

Provides features like expense categorization and summaries to help users analyse spending patterns.

Future Enhancements:

The system can be expanded with advanced features such as budgeting, graphical reports, and mobile application integration.

2. PROPOSED SYSTEM

2.1 OBJECTIVE

- 1.To Develop an Expense Tracking System
- 2.To Simplify Financial Management
- 3.To Categorize Expenses
- 4.To Provide Expense Insights
- 5.To Ensure Data Security
- 6.To Promote Financial Discipline

2.2 REQUIREMENT GATHERING

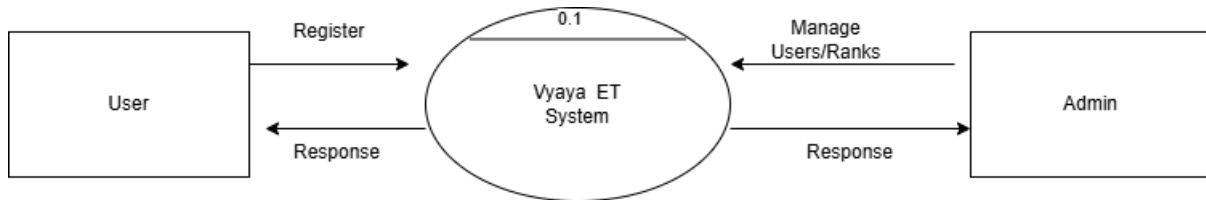

- **Interviews:**

Basic discussions were conducted with potential users such as students and professionals to understand their needs in managing daily expenses. The focus was on identifying difficulties in manual expense tracking and the need for a simple and efficient digital solution.

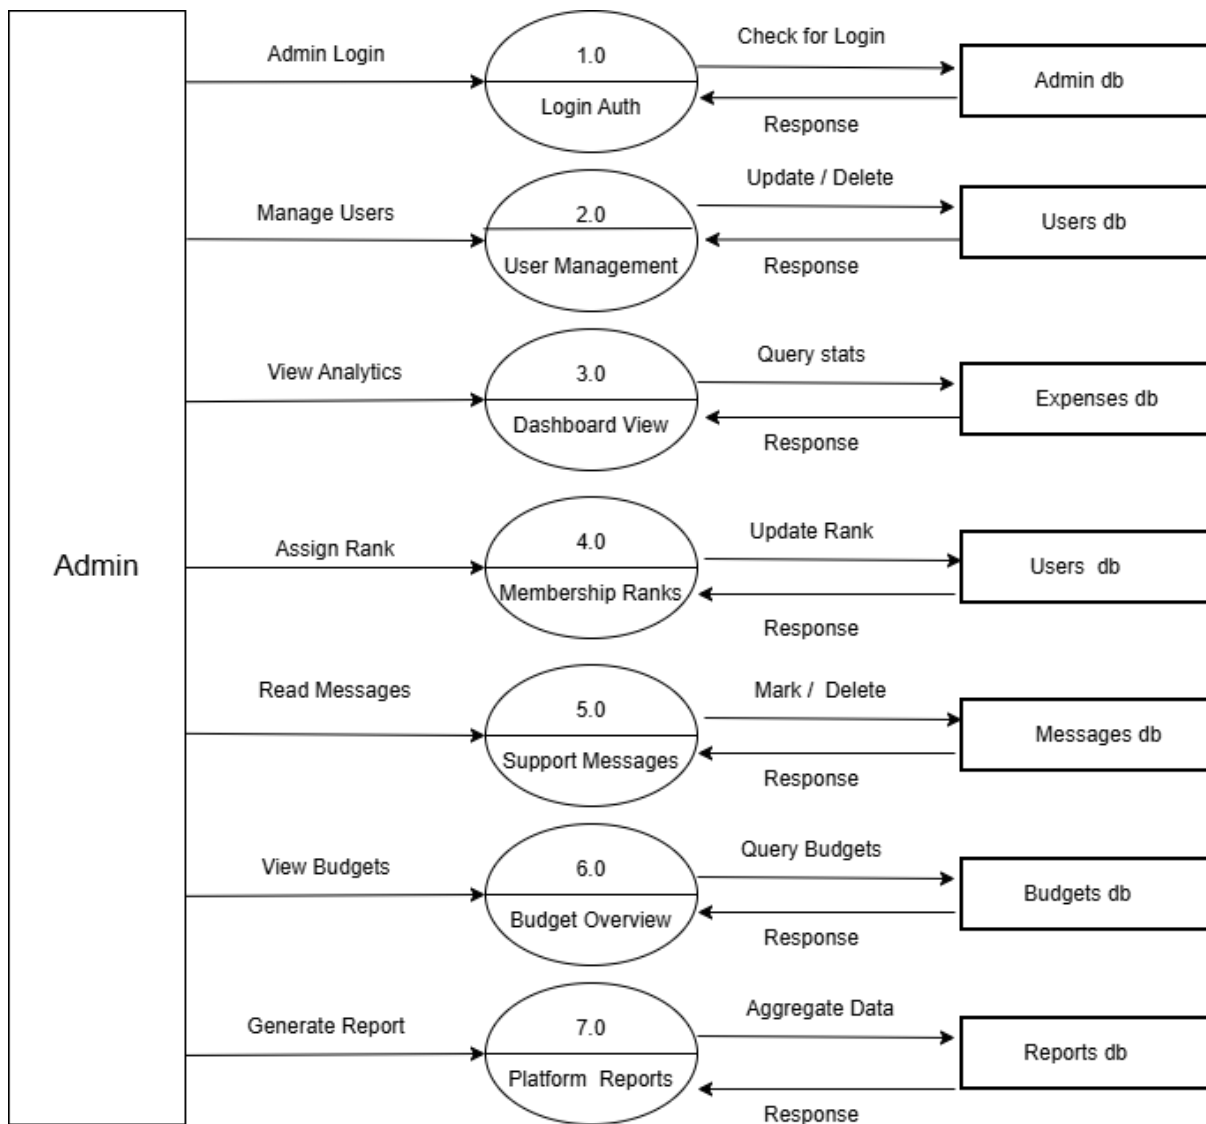

3 SYSTEM ANALYSES

4.2 INPUT DESIGN

4.2.1 ADMIN LOGIN :

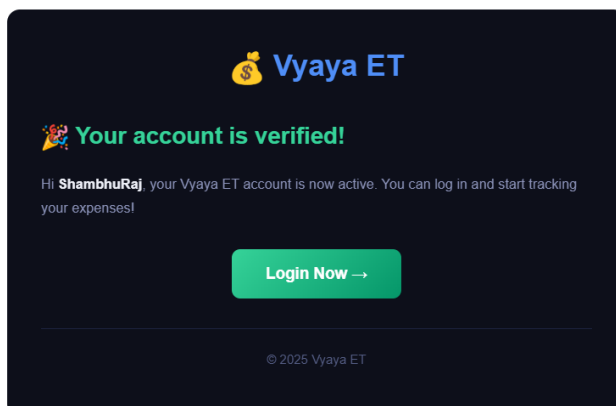

The Admin Login interface is split into two panels. The left panel, titled 'Admin Control Centre', features the Vyaya ET logo and a shield icon. It lists permissions: 'Manage all users', 'Assign membership ranks', 'Platform analytics', and 'Activate / deactivate accounts'. The right panel, titled 'Admin Sign In', prompts the user to 'Enter your admin credentials to continue'. It includes input fields for 'Admin Email' (pre-filled with 'admin@spendwise.com') and 'Password' (pre-filled with 'Admin password'). A red 'Access Admin Panel' button and a blue 'Back to User Login' link are at the bottom.

4.2.2. USER Registration

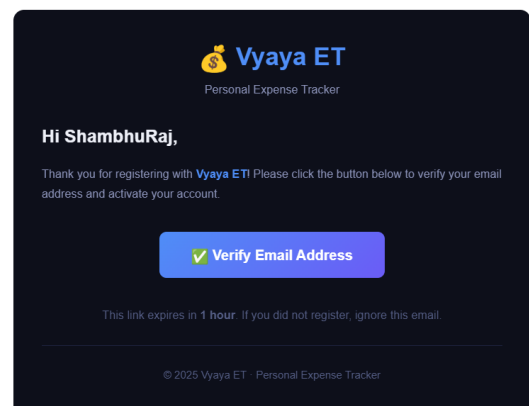

The User Registration interface consists of two panels. The left panel, titled 'Start Your Financial Journey Today.', shows a circular diagram with 'Analytics' (Live charts), 'Alerts' (Budget tips), and 'Secure' (Encrypted). The right panel, titled 'Create Account', asks the user to 'Fill in your details to get started'. It includes an 'Upload Photo' button (JPG, PNG, WEBP up to 5 MB), and input fields for 'Full Name' (Raj Swarni), 'Phone Number' (+91 98765 43210), 'Email Address' (you@gmail.com), and 'Password' (Create a strong password). A red 'Create Account →' button and a blue link 'Already have an account? Sign in' are at the bottom.

Email Verification

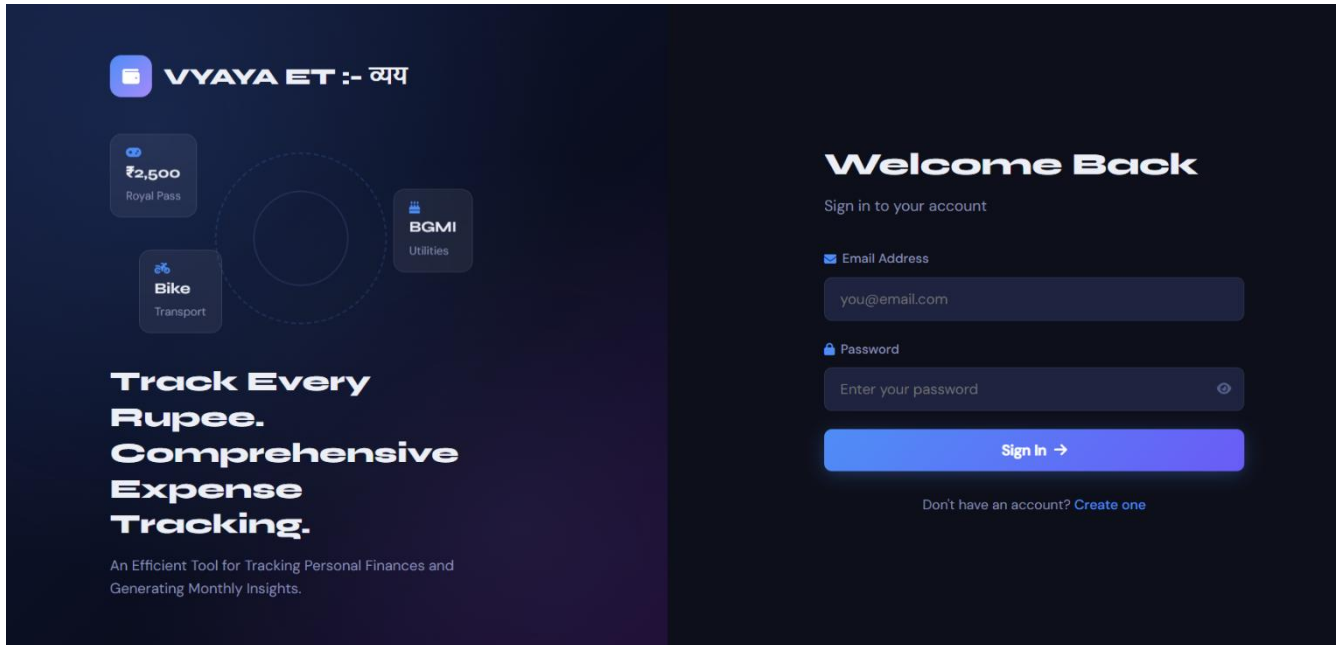

This screen confirms account verification. It features the Vyaya ET logo and a green message: 'Your account is verified!'. Below, it says 'Hi ShambhuRaj, your Vyaya ET account is now active. You can log in and start tracking your expenses!'. A red 'Login Now →' button is centered. The footer shows '© 2025 Vyaya ET'.

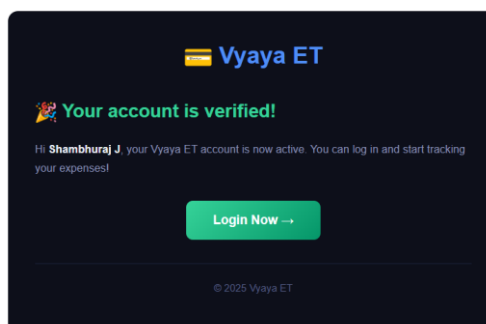

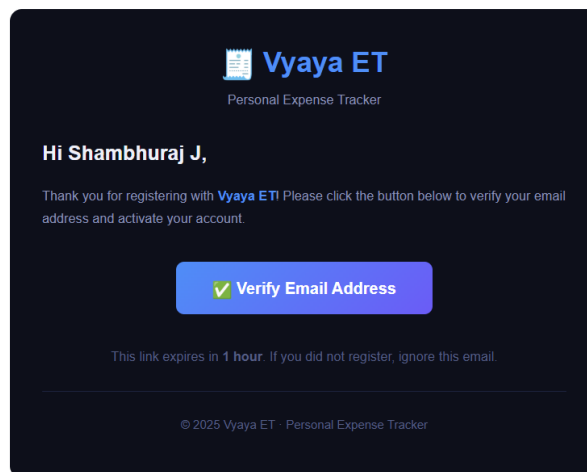

This screen requests email verification. It features the Vyaya ET logo and the text 'Personal Expense Tracker'. It says 'Hi ShambhuRaj, Thank you for registering with Vyaya ET! Please click the button below to verify your email address and activate your account.' A red 'Verify Email Address' button is centered. Below, it notes 'This link expires in 1 hour. If you did not register, ignore this email.' The footer shows '© 2025 Vyaya ET - Personal Expense Tracker'.

4.3. Output Design :

4.3.1 Home Page

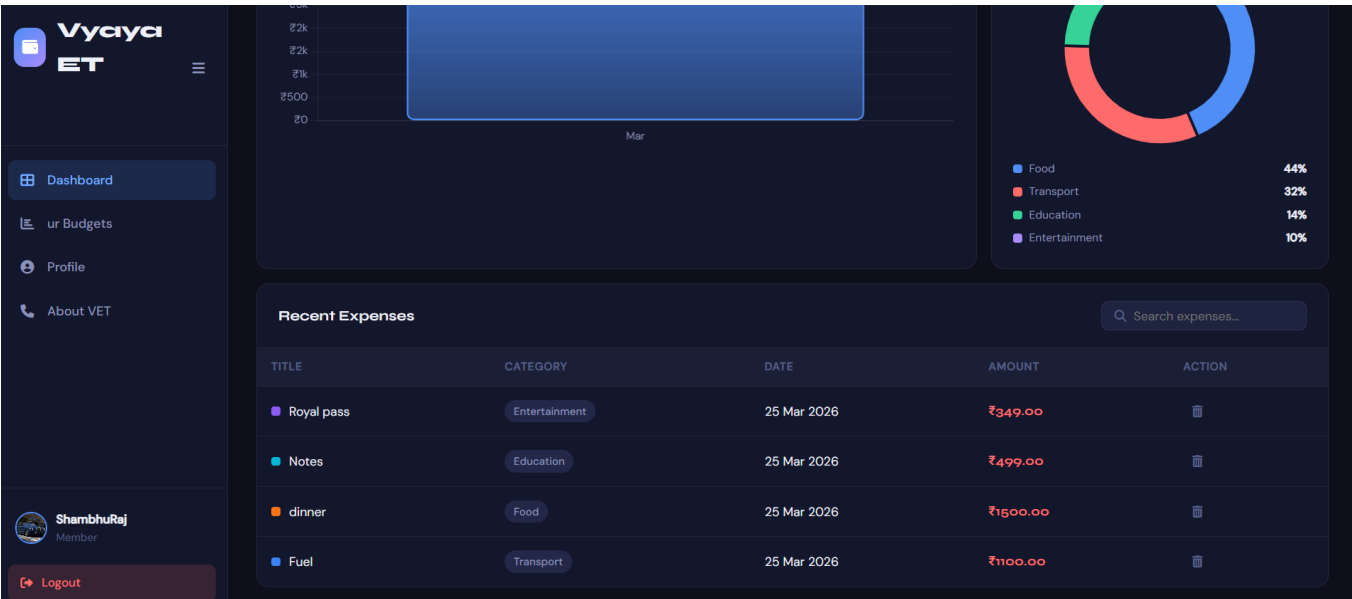

4.3.2 Add Expense

The 'Add New Expense' modal form is displayed over the dashboard. It contains the following fields and controls:

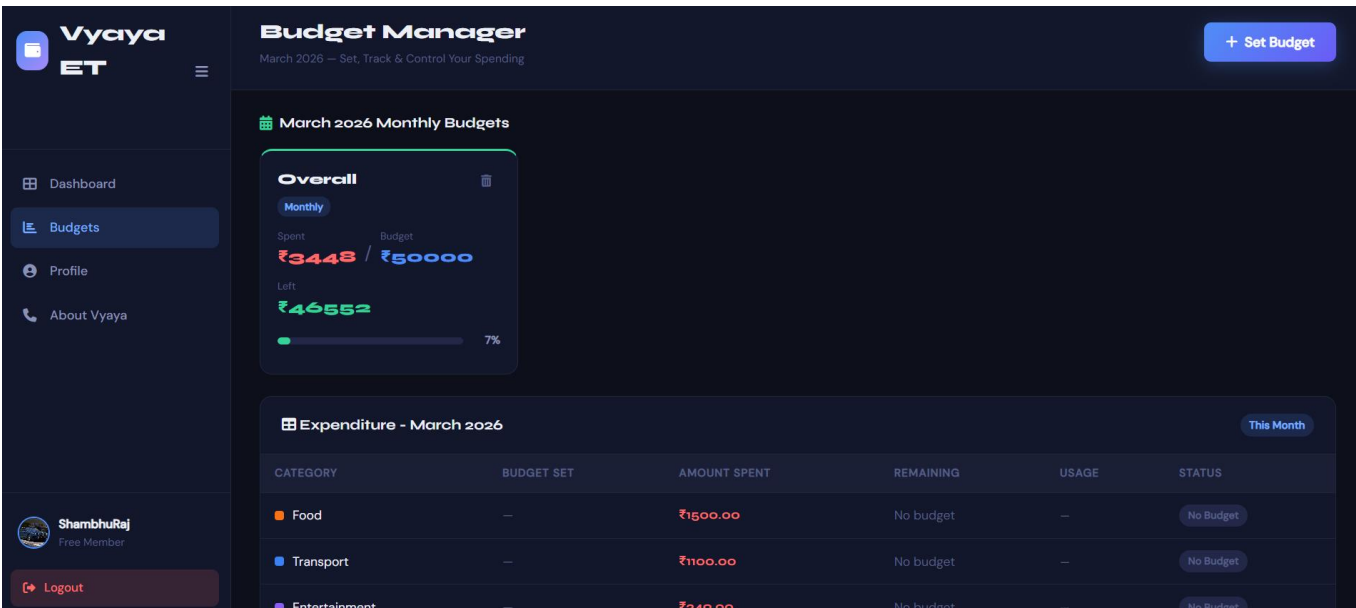

- Title:** Text input with placeholder 'e.g. Grocery Shopping'.
- Amount (₹):** Text input with value '0.00'.
- Category:** Dropdown menu with 'Food' selected.
- Date:** Text input with value '03/26/2026' and a calendar icon.
- Description:** Text area with placeholder 'Any notes...'.
- Buttons:** 'Cancel' and 'Add Expense' buttons at the bottom right.

WHO WE ARE

VYAYA is a personal expense tracking platform built for individuals who want clear, honest visibility into their spending habits. We believe financial awareness is the first step toward financial freedom.

OUR MISSION

To give every user a simple, beautiful, and secure way to track their expenses – so they can make smarter financial decisions every single day.

WHAT WE OFFER

- Real-time expense tracking with category breakdown
- Interactive charts – monthly trends and spending patterns
- Membership tiers: Free, Silver, Gold, Platinum, Diamond, Enterprise
- Management
- Secure login with profile photo and personal details
- Fully responsive – works on any device
- Support system with direct admin communication

7. CONCLUSION

The Vyaya ET (Daily,monthly,yearly Expense Tracking System) provides a simple and effective way to manage daily expenses. It helps users track and analyse their spending easily while ensuring secure data handling. Overall, the system is user-friendly and meets the basic requirements of expense management.

LIMITATIONS

There are some limitations for the current website on which solutions can be provided as a future development:

- The system provides only basic expense tracking features
- It does not include advanced data visualization or analytics
- The application is web-based and lacks a mobile app version
- Expense tracking depends completely on manual user input
- Limited security and authentication features
- No notification system is implemented
